A THRILLING PERFORMANCE.

Firing a Man into the Air From a Cannon—A Hitch in the Entertainment.

From the New York Sun.

The programme at Tony Pastor's theatre says the Ella Zula is an "Ethereal Queen," and that George Loyal is a "Human Projectile." They have a trapeze performance. Then follows their great feat. A cannon of tremendous size, mounted in a nearly upright position on a low truck, is pushed out upon the stage by six men, who, with much difficulty, owing to its great weight, get it to the proper place. Loyal climbs a ladder up to the mouth of the cannon, and slides down into it, until only his head is left visible. Zula, who is an active little woman, climbs a rope up to a small trapeze at the top of the auditorium, and hangs by her feet, head downward, with her arms extended. Loyal and Zula wear solemn faces, and the spectators are wrought up to a feeling of dread.

"Fire!" cries Loyal.

An assistant touches off the cannon, there is an explosion, a flash of fire, a puff of smoke, and Loyal is shot to the top of the auditorium where Zula catches him. Then both descend to the stage, all the spectators applauding.

That is the usual way. Yesterday afternoon there was a variation, beginning at the point where Loyal was in the cannon and Zula was hanging from the high trapeze, each with solemn visage.

"Fire!" Loyal shouted.

The assistant tried to touch off the cannon; but it missed fire, and there was no detonation, no flash of fire, no puff of smoke. However, there was the sound of an unloosed spiral spring, and Loyal was shot out of the cannon without any expenditure of gunpowder. Probably the absence of the usual detonation put Zula off her guard, for she did not catch the human projectile when he rose like a rocket, but let him go down like a sick. He wallowed in the netting until he reached the edge, when he let himself down with a rather graceful somersault to the stage, where he was joined by Zula, and both bowed themselves off with smiles that were suspected of being forced.

WALKING AT VIRGINIA.

The Stalwart Pedestrians.

From the Virginia Chronicle of Saturday.

To-night at 8 o'clock the six men who have entered for the twenty mile pedestrian contest will begin their walk at Piper's Opera House. Their names are M. E. Kennedy, A. H. Niles, B. G. Snow, A. B. Hill, A. I. Cowden and J. Pasco. The first man out gets \$25, the second \$15 and the third \$10.

THE QUARTER HOUR LADY.

At the close of this walk, which will be about midnight, Mrs. Randall, the quarter-hour walker, will take the track and walk until 1 o'clock, at which time Ma'mselle Von Berg and Tourtelott, the contestants for the \$1,000 stake will begin their six-day tramp, winding up at 11 o'clock on Thursday evening.

THE TRACK.

Has been very carefully prepared, and consists of earth and sawdust, which will be sprinkled with water every two hours. It extends over the pit to the dress circle, and is on a level with the stage. It is twenty-eight inches wide, and one-thirtieth of a mile in circumference. It is expected that the walkers will make a record of 400 miles during the contest, which will necessitate 12,000 circumambulations of the track.

Smoking and Drinking.

From the New York Sun.

Some striking remarks have appeared in the current number of the *Contemporary Review* on the physiological action of intoxicants. Their author is Dr. B. W. Richardson, who is known to have made a special study of the subject, and some of his conclusions will be found strangely counter to the prevailing impressions. It is often supposed that hard drinkers are not great smokers—that an intense craving for tobacco is scarcely compatible with a morbid appetite for alcohol. This, according to Dr. Richardson, is so far from being the case, that only those who indulge to excess in the one agent can tolerate large quantities of the other.

UNDER THE ACTION OF TOBACCO, the heart seems rapidly to run down in power, and alcohol is called for to whip it up again. The fact, precisely stated, is that the minute vessels at the termination of the arterial circuit are contracted by nicotine, so that the face becomes pale, and the surface of the body cold, whereas a glass of spirits relaxes the same vessels, flushes the face, and, in every particular, counteracts the drug. When, therefore, we see a man smoking and drinking, recurring now and then to wine or beer to quiet the qualm inflicted by the cigar or pipe, we are really watching an instinctive physiological experiment. The man is unconsciously inducing a balance in the tension of his arterial system. We ought to have expected, therefore, what is said to be attested by statistics, that great smokers tend to be hard drinkers, and that few among total abstainers from a chol can bear tobacco except to a very moderate extent.

COFFEE AND BEER.

What is Drank in the United States and Europe.

The consumption of genuine coffee in the United States during the year 1878 was about 7 pounds to each man, woman and child, or about five times as large an amount of coffee as of tea. The consumption of "bogus coffee" also amounted to one or two pounds per capita. The use of coffee throughout the world has increased in large ratio during the past 40 years, and the present requirement for all nations is estimated at 850,000,000 pounds per annum, against 490,000,000 pounds per annum from 1840 to 1850.

The champion beer drinkers of the world are undoubtedly the people of Bavaria, who drink 147½ gallons of beer per head, for which they pay \$13 50. The total outlay in Bavaria for this beverage is more than \$95,000,000 per annum. The figures given for the two principal cities of Bavaria—Nuremberg and Munich—and for Ingolstadt are still larger per capita. The former city has a population of about 50,000, and consumes annually about 212 gallons for each inhabitant. This is an average expense to each person of about \$19; total, about \$1,700,000. The population of Munich is about 175,000; the beer drank per person annually is about 248 gallons; this is an average expense of about \$22 30; total, about \$3,900,000. Ingolstadt, with a population of only about 15,000, expends annually for its favorite drink about \$175,000. This is an average to each inhabitant of about \$47 60, with an average consumption of about 523 gallons.

The average consumption of lager beer in the United States is less than a quarter of a barrel per capita per annum, though the use of this beverage in place of stronger liquors is constantly increasing. The average consumption of tea is about a pound and a half per annum; of wine, but little more than a quart, and of whiskey, gin and rum nearly two gallons. A vast amount of capital and labor finds employment in supplying the human family with its various beverages, some of which cheer and some inebriate.

Dr. Mintie's Nephreticum.
DR. MINTIE'S NEPHRETICUM works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills:
"We have sold a large amount of Dr. Mintie's medicines; the English Dandelion Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."
John A. Childs, Druggist, Second street, Portland.
C. H. Woodward & Co., Druggists, corner First and Alder street, Portland.
Messrs. Abrams & Carroll, wholesale, Druggists, Nos. 3 and 5 Front street, San Francisco, say:
"We regard Nephreticum as the best Kidney and Bladder remedy before the public." All Druggists keep these medicines.
For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills.
For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills.
For Fever and Ague, Use Dr. Mintie's English Dandelion Pills.
Every family should keep the English Dandelion Pills on hand.
Dr. Mintie's Remedies will not "Cure all Complaints," but will, if taken according to directions, give immediate relief and perfect a cure in all troubles for which they are recommended.

TABACCO AND MARRIAGE.

The California Farmer republishes a chapter on "Marriage," from a recent work by an M. D. of New York. The following is taken from the Farmer's reprint:

"I warn you, as you hope for a clean, healthy and enjoyable married existence, to avoid marrying a man who comes to you—exuding from his breath, his clothes, his body, his very soul, the dirty effluvia of tobacco, the excreted essence of his selfish, unnatural, perverted desires—with the intention of marriage, with a hope of uniting his foul body to your pure existence. Reject, promptly and positively, his acquaintance, as promptly and positively as you would a chew of his fine-cut tobacco or a puff from his cigar."

This is excellent advice and is cordially endorsed by the GAZETTE. But as about nine-tenths of the men smoke and will persist in smoking, even if it shuts them out from matrimony, the above is about equivalent to a recommendation not to marry at all. Better marry the dirty men and reform them afterward.

EDITORIAL NOTES

450 Piutes, attended the fandango at Stillwater, Churchill Co. Naches, heir to the Piute throne, tells the Silver State that war is inevitable between the Piutes and Shoshones. The Piutes are the most numerous, and used to hold the Shoshones in subjection. The Shoshones centre about Austin and have ordered the Piutes away from that vicinity. The Piute cabinet considers that a *casus belli*, and will march on the Shoshone camp at Austin, unless the Shoshones knuckle to their authority. To-to-aw is the name of the proud Shoshone chief who has dared to oppose the Piute supremacy.

Somnambulism is to be the preferred plea hereafter in criminal cases. Insanity has served a useful turn, but now it appears that somnambulism is likely to replace it. Charles Lachette assaulted Edward Stone in a restaurant at Portland, on the 31st ultimo, with a cleaver, inflicting two dangerous wounds in the head. Lachette pleaded somnambulism. The public may hereafter expect to hear of many burglaries and murders committed during sleep. But the man who handles a cleaver with so much freedom while asleep, is dangerous, and should be treated exactly as if he had had one eye open all the time.

Ogden has some peculiar attractions. We learn from the Dispatch that mountain trout in large numbers come down the irrigation canals into the town. One day recently they were so abundant in the ditches that the inhabitants turned out in force, dammed up the canals, and went after the fish with cobblestones, pitchforks, shovels, tin pans, old corsets, hoop-skirts, sieves or any available article for capturing them. The ladies took an active part in the work. Ogden is probably the only town in the world where a man can sit on the curbstone and catch trout.

"Pinafore" was recently performed in a highly realistic fashion at Providence, R. I. The opera was rendered on board a real ship, 110 feet long, moored in a small lake in Park Garden. A large audience witnessed the performance from the shore. Sir Joseph put off in a boat to the ship, there was a real companion ladder, the yards were manned and salutes fired as is the custom in the English navy. The little vessel was a fine model of a man of war. The whole setting was admirably managed and greatly heightened the effect of the popular comedy.

Very well executed counterfeit five dollar greenbacks are in circulation in San Francisco, and some are likely to find their way into Nevada. More than a dozen of them were detected in two days last week at San Francisco. The counterfeit may be detected by the flimsy texture of the paper, and from the fact that the fiber marks appear only on the back of the note. These bogus notes are supposed to come from the east. Some bear the name of the "National Bank of Boston," and others the "National Bank of Dedham." Look out for them.

The Enterprise of yesterday contained a disclosure of the operations of a firm of New York swindlers, called the "New York Jewelers," and Watch Importation Association. There is a kind of lottery scheme, and they have plucked a Comstock

goose, who swallowed the attractively baited circular.

Thompson & West who are publishing a "History of Nevada county, Cal.," are distributing very excellent lithographic sketches of Denner lake and the camp of the ill-fated party. Such fine illustrations will add greatly to the interest of the book.

The much needed increased mail facilities between Reno and Walla Walla have been granted by the Government, as will be seen by a paragraph on the next page. This is good news.

Ho (Glenn) will not be sustained by the best elements of the Democratic party, men who, through many years of voting and defeat, have labored to maintain the party and its principles. —*Grass Valley Union, (Dem.)*

The French talked of building a railroad in Vesuvius last spring. For some reason the scheme seems to have been indefinitely postponed.

Daily Three O'clock is the title of a new evening paper issued at Stockton. It is edited by C. C. Williams and boasts the H. B. standard.

Two columns of Sheriff's ads. on the gable end of the Enterprise, looks like hard times on the Comstock.

STATE NEWS IN BRIEF.

Elko is dry now. Its citizens are always.

The Carson mint resumes coining to-day.

The Humboldt valley is as dry as a brick kiln.

Winnemucca merchants are using telephones.

Two quartz mills will soon be put up at Sutro.

Only one fire in Virginia during the month of July.

Coyotes, rabbits and rattlesnakes thick about Eureka.

A Carson cat laid down on a rag wet with chloroform and died.

Elko Chinese stole young martins from a nest, cooked and ate them.

Two hundred and fifty thousand dollars circulate in Eureka on pay day.

The Eureka mill on the Carson river will soon shut down for want of water.

D. A. Ewing of Virginia, during a recent three weeks' trip to Tahoe, killed six deer and one cinnamon bear cub.

George Hauser banged George Berger with a club at Winnemucca. Hauser is supposed to be deranged and is locked up.

The elegant residence of A. M. Hillhouse is nearing completion. It will be, when finished, the most costly private dwelling in Eureka.

The Austin Revue says that Col. S. H. Fulton has been asked to edit the Carson Appeal, and that he has accepted Mrs. Mighels' offer.

The Eureka Base Ball club has issued a sweeping challenge. They will play any club within a thousand miles or so, and lick 'em every time.

A cloud burst at Newark, near Eureka, last week, sent boulders big as houses rolling down the gulches, and acres of soil were swept into the valley below.

General Beale drove 12,000 sheep through the Willows, near Eureka, last week, on the way to Wyoming. 8000 head died on the way from Kern county.

A gang of Spring City hoodlums threatened to descend upon Paradise and "go through the town." Paradise is peaceful and law-abiding, but itches for the fray.

Next Monday, Aug. 11, Aimee and troupe of forty persons, including full chorus and orchestra, will open at Piper's Opera House for a season of three nights and a matinee.

A fair damsel of Eureka pretended to have taken poison, and a doctor was called in haste. To him she confessed the deception, but he pumped her out all the same, to punish her.

A tramp, found in a box car, tried to pass himself off on an Elko Justice as a San Francisco Chronicle reporter, but the Court considered his plea an aggravation of his offense and gave him ten days.

Henry Oukon, at Eureka Friday night, blew his brains out with a pistol, in a house of ill-fame. At the inquest a woman testified that he did it because she would no longer live with and support him.

The track in Piper's Opera House is 107 feet 3 inches in circumference. Tourtellot makes the circle in 60 steps, Von Berg in 84. Tourtellot's step averages 31 inches, Von Berg's 29, says the Stage.

Jim Tighman, returning from Tem Pahute, stopped by a stream, 20 miles from Eureka. Rattlesnakes so thick that he was obliged to move away from the water. Truthful James went back with a stout club and killed thirty-six of the rattlers.

The Elko Post thus praises: "Miss Shorcin has been lauded to the skies as a finished singer and a great card in 'Pinafore.' She is young, petite, and has a good organ, which seems to be well cultivated, for it is round, smooth and pathetic."

An inebriated Spring City man tried drinking out of a well 22 feet deep, and containing four feet of water. His peculiar manner of drinking was remarked, and after a time he was drawn out by his heels, which were observed projecting from the water. He was dried and recovered.

Train dispatcher King, of Carson, made unpleasant remarks to engineer Gifford, in former's office. Gifford

doubted King's courage to say same thing outside of office. Whereupon King jumped over the counter and knocked Gifford down, thus removing the latter's doubts.

Convicts in the state prison bored a hole into the ceiling of a cell with a piece of gas pipe, and filled the space overhead with oily rags, planning to fire the building and make their escape in the confusion. Last Thursday their operations were discovered and their scheme defeated.

The Paradise Reporter remarks facetiously: "Owing to the fact that the farmers are all busy harvesting, and all the able-bodied men in the valley are engaged, our little town has been unusually quiet for some time past. Not a dog has been killed for nearly three weeks."

Joe Moendes, a saloon keeper of Eureka, has imported an orchestra from Baden. The instrument is a mammoth music box, combining the powers of a complete orchestra. It has twelve cylinders, and plays over fifty tunes. The motive power is supplied by a heavy weight, wound with a crank.

A poor Paradise reporter climbed a mountain to see the Paradise mine, but, having taken a young and pretty lady for a guide, completely lost his head. When he reached the mine he couldn't tell the difference between horn silver and granite. Such, in substance, is the melancholy story that he has confided to the public.

Eureka is about to build an \$18,000 school house. H. Bishop of that city purchased the school district's bonds, amounting to \$20,000, at ninety cents on the dollar. They bear interest at one per cent per month, and are to be redeemed at the rate of \$4,000 a year. The sale of the bonds enables the district to build immediately.

Bung-Eye, known officially as Spring City, is a mining camp on the borders of Paradise, though very far from heaven. During the interval between Wednesday evening and Thursday morning a stranger entered the tranquil town. Filling himself with "lightning," he announced that he was "spooling for a fight," and proceeded to proclaim himself the "alamagoozleum" of the camp. Ten minutes passed, and the "alamagoozleum" was lying low, with three ribs broken, and Bung-Eyed.

PACIFIC COAST ITEMS.

Ogden, Utah, has no water works. Flour is being sold at Lewiston for \$1 per sack or \$4 per barrel.

The Good Templars of Nevada City, Cal., propose starting a newspaper.

California peaches command 20 cents a pound in the Salt Lake market.

An Ogden lady made a solution of corrosive sublimate for bed bugs, but got some on her hands and was badly burnt.

Wm. Mooney shot John O'Connor at Bodie on the first. Both drunk. Mooney has been arrested. Connor may die.

Leves District No. 1, Sutter county, is about to commence a suit against the hydraulic miners. The district represented in the suit embraced 60,000 acres, valued at \$4,000,000.

A fire was raging last week for miles on both sides of the Yuba river, near Smartsville, burning much hay, pasture and fencing. A large force of men were fighting the fire on Saturday, and had it under control at last accounts.

A trunk full of live snakes was sent from the East to a San Francisco naturalist. He declined to receive it, and an Ogden Dispatch reporter recently saw it going back East marked C. O. D. \$250 charges. The snakes seemed to enjoy the trip.

A pestilence is visiting the Willamette Valley, Oregon, in the form of a small insect whose subtle attack kills the grain stock suddenly and whitens it. Farmers have been noticing for sometime, little patches of blighted grain in their fields, but attributed it to wet spots on their lands until critical examination revealed the true cause.

New Patents.

Dewey & Co's Scientific Press patent agency has received official notice of the issue of the following patents to Pacific coast inventors, for the week ending July 22d, 1879. 217,766, P. Bargion, Black Diamond, Cal., combined rail and telegraph conductor; 217,770, Wm. H. Brodel, Oakland, Cal., sight for fire-arms, 217,807, J. C. Ludwig, S. F., electromagnetic motor; 217,740, Charles A. Mentry, Newhall station, Cal., reamer for deep wells; 217,752, J. F. Simons, S. F., gun wiper; 217,835, N. Watry, S. F., nose clamp for eye glasses; 217,841, Wm. Wilson, Oakland, sewer-trap attachment; 217,775, A. Collie Modesto, Cal., water-lifter.

Fine Stock for Montana.

From the Ogden Dispatch.

This morning sixty-four head of Durham cattle, valued at \$100 a head, and fifteen Clydesdale horses, consisting of twelve mares, valued at \$225 each, one stallion, worth \$1,000, and two fillies, costing \$700 each, arrived from the east, in charge of Mr. A. Hoepfer, under whose supervision they were transferred to the Utah and northern road, for shipment to Deer Lodge, Montana, where they will be turned loose upon the fine stock range belonging to Con. Kohrs, a heavy stock dealer of that region.

Newspapers Increasing.

Geo. P. Rowell & Co., in the American Newspaper Directory for July, show that the whole number of newspapers in the United States has increased since January of the current year, from 8708 to 9153. New papers abound in the territories. Suspensions have been fewer than in any corresponding period for some years.

Novel Teams.

Jennie Graham, the winsome little daughter of Mr. and Mrs. A. J. Graham, has discovered a novel and interesting plaything. It consists of a team of four grasshoppers, harnessed by means of threads passed around their bodies, under their wings. Their drawing power is considerable, and they work with as little kicking as the average mule. At last account several of these grasshopper teams were being caught and harnessed up by the little folks of Truckee. —*Truckee Republican.*

Killed by Indians.

A letter from John Erikson, dated at Leon Creek, Idaho, to the Times-Review says that S. D. Edwards, formerly of Tuscara, was killed by Indians on the 14th instant. Erikson, Edwards, and two other men, were prospecting on the north fork of Salmon River, when they were attacked by a war party of twenty-five Banocks. Erikson and two of his companions escaped, but Edwards received a shot in the back, which, in less than three hours afterwards, resulted in his death. The Times-Review says Edwards was formerly a Deputy Sheriff at Tuscara, and one of the original locators of the Hornet mine.

JOTTINGS.

—Strassburger & Co. must have room—Read their notices.
—A new lot of goods received at M. Weil's. He is selling them dirt cheap.
—Some citizens to-day signed every petition in circulation for the benefit of candidates for the office of Justice.
—Old "48" came up in thorough order from Wadsworth on Saturday, and is puffing about to-day as usual.
—The Palace hotel has passed into the hands of F. Cook, with Jerry Brown as manager. It will be run as usual. See ad.
—The proprietors of some bath rooms in Reno have a theory that the recent death of a prominent citizen was caused by bathing in the river.
—No action yet by the Mechanics' Union in regard to engineer Clark. Many think they will bide their time and make a demonstration when least expected.
—The new dam is a favorite resort for the boys and girls these fine evenings. "See Saw" is popular, and the loose planks about the dam are sprung into service.
—Men were at work raising the fire engine house this afternoon preparatory to removing it to the site of Earl's old depot, near the station. The removal will take about three days.
—Rev. Mr. McKelvey is endeavoring to have the next annual conference of the M. E. Church held at Reno, instead of Winnemucca, the appointed place of meeting.
—One rattlesnake was brought in to town on a load of hay, and now all the Nevada papers, out of Reno, are saying that "Reno streets are full of rattlesnakes." Snake stories grow by travel.
—Appointment of a Justice.
The County Commissioners met to-day to appoint a Justice of the Peace to succeed the late Judge Bowker. The candidates for the office were numerous. Wm. H. Young received the appointment. Young was a candidate for the office in the Republican convention at the last election, but was defeated by Bowker, who gained the nomination by a small majority. He previously served a term as deputy sheriff. There were a number of men among the candidates to-day who were well fitted for the position. The appointment of Wm. H. Young to the office of Justice, will, without prejudice to the defeated, give general satisfaction.

The New School House.
The School Trustees met on Saturday evening and adopted a plan for the new school building. The one chosen was the work of A. A. Cook, of Sacramento. The plan was returned to him with instructions to make such alterations as will be published. The building is to be a two-story frame, about 90 feet square, will contain eight rooms, each 28x32 feet, and a hall about 9 feet. The basement will be 8 feet.

CHASED BY A MADMAN.

A Race for Life on the Truckee Meadows—Two Reno Boys Almost Shoveled into Eternity—The Fastest Foot Race Ever Run in Washoe.

Lawyer Queen and Mr. Ringo went to Truckee Meadows on business last Friday. By mistake they walked to the house of Pat Curran, a lunatic recently discharged from the Stockton asylum. Curran was supposed to be cured, but since his release has devoted all his time to sharpening his razor, an occupation not usually fascinating to a sane man. Curran caught sight of the two approaching the house, and started out to meet the invaders, aiming himself with a long-handled round-pointed shovel. Just then Curran's wife appeared at the door, and motioned the visitors away. Curran had commenced threatening demonstrations with his weapon, and taking the hint, they sought safety in flight. The old gentleman with the shovel started.

IN HOT PURSUIT.

The race must have been intensely exciting. The boys could feel the cold point of the shovel running up and down their backs, as they fled. Away they went through the sagebrush, the madman in full cry. At the first quarter Queen had the lead by a cheek, closely pushed by Ringo, with old shoveller closing up the gap. As the half mile was reached Queen fell behind, and Ringo led by a necktie. The old man, heavily handicapped as he was, labored heavily, but was doing his best to reach the fugitives with the shovel. Before the next quarter was passed, wind began to tell, and the old man was distanced within the mile. The boys, however, kept right on, and made three mile heats in succession, before they felt sure that the race was won. They are of the opinion that Curran should be put under restraint.

Daily Mail to Walla Walla.

Hon. R. M. Daggett received the following letter last Saturday:

POSTOFFICE DEPARTMENT, WASHINGTON, D. C., July 25, 1879.
SIR:—I have the honor to inform you that an order has this day issued on Route No. 46, 67, from Willow Ranch, Cal., to Reno, Nev., to increase the service from three to seven times a week, in accordance with your recommendation. Very respectfully,
J. L. FRENCH,
Acting Second Assistant Postmaster General.

Hon. R. M. Daggett, Virginia City.
Willow Ranch is in Goose Lake valley, on the California and Oregon state line. The effect of the change will be to give a daily mail through Walla Walla, Washington Territory. The need of better postal facilities on that route has been strongly urged by the GAZETTE, and the increased accommodation is a matter for congratulation.

The Tar and Feather Game.

A devoted young mother of Reno has devised a new way of amusing her baby. She puts the infant on the floor, and props it up with pillows. Then she smears a few drops of tar on the baby's fingers, and gives it a large feather. The baby sits contentedly all day long, picking at the feather. As fast as the little fellow gets it off one finger it sticks to another, and thus affords him continual amusement. Besides diverting the child's mind so well, it is a good thing too, his mother thinks, to make children handy with tar and feathers.

Raffling a Feather Bed.

A little boy was about town Saturday trying to sell tickets for a feather bed raffle. As a feather bed is rather an unusual thing to be raffled in an unusual thing to be raffled in, the tickets seemed to be going very slow. The little fellow naively remarked that his mother "thought she could raffle it because there seemed to be a good demand for feathers here." The weather is too warm now to sleep on feathers, but they have a variety of uses.

Sagebrush Leaves.

The first edition of Harry Mighol's book, 1000 copies, has been found insufficient to supply the demand. Virginia and Carson take all that have been published. A second edition has been ordered, and Reno, Bodie, Elko, Eureka and other places will have to wait until it appears. Meanwhile all can rejoice in the success of the book.

Boardman's Address.

Wm. M. Boardman delivered a fine address before the Reform Club on Saturday evening. His subject was "All That Glitters is not Gold." The house was well filled; an especially large attendance of ladies being remarked.

Down With Monopoly.

The citizens of Reno have suffered long enough under the monopoly of one bakery, the Palace Bakery, (next door to the Arcade Restaurant), offers to every one buying 25 cents worth of bread, six loaves for that sum. As to quality, I challenge any baker for \$100 a side, to produce better or sweeter bread. ang17

A Smart Indian.

An amateur oursayman lately bought from an Indian, a rat planted in a can, with its tail sticking up out of the dirt, for a new species of cactus. He watched it day and night for a week to see if it was growing. It grew.

Watches repaired at New York prices. All work warranted for one year. Executed personally by Googel, the well-known watchmaker of Reno. ang17

Attend the great clearance sale of Summer Dry Goods at (ang17) Sol Levy's.

SPECIAL TO THE GAZETTE.

THE CRUEL WAR OVER.

The Zulus Badly Beaten and King Cetewayo a Fugitive.

Terrific Hall Storm in London—Damage to English Crops—Divisional Government for the Zulus—New Cases and Hot Weather at Memphis

Heavy Storm in England.

LONDON, Aug. 4.—A severe storm swept over England Saturday night. Hail as big as pigeon's eggs fell in the city. The damage was heavy in the country.

The Root of the Zulus.

LONDON, Aug. 4.—Latest advices from the cape report that the Zulus have utterly broken up, and that Cetewayo is a fugitive from the British troops. The tribes will be divided into four dependencies, under chiefs to be appointed by the British.

Fever Heat.

MEMPHIS, Aug. 4.—Five new cases of yellow fever this morning. One death. Weather very warm.

PERSONAL.

James Bradley is going to Bodie this week with a lot of horses.
Jasper Babcock, Secretary of State, returned to Virginia last night after half a day in town.

J. S. Kaneen, Gas Supt. and J. V. Overton, Water Supt., took a run down from Virginia yesterday.

F. Clugge, proprietor of the Bodie and the Battle Mountain stage lines, came from Carson and went East last night.

Theodore Winters, of Washoe, spent yesterday in Reno. Mr. Winters, who raised Mollie McCarty, is very proud of her success on the turf. He has a number of very promising colts entered for the fair.

Henry Asserts Himself.

"Warm to-day, Henry," remarked Joe Smith to Mr. Johnson, about noon to-day. Henry's pale face instantly became crimson, and without a word of warning he felled the offender with a large watermelon that happened to be handy. As Smith rose up, stunned and bewildered, Henry poured upon him the full force of his wrath. Slightly raising his voice, so that he could be heard ten blocks away, Henry threatened with immediate death the next man that presumed to give him any information about the weather.

The Funeral.

Judge Bowker's funeral yesterday was largely attended. The interment was attended by the members of both lodges of Odd Fellows. Past G. M. Atkinson, G. M. Smith, S. Secy. Hill, Verdena, and other prominent men of the order were present from Virginia. A funeral sermon was preached by Rev. Mr. McKelvey at the Methodist church. The procession then followed the remains to the Odd Fellows' cemetery, where they were buried.

Fracture and Dislocation.

George Bates, a boy of eight or nine years of age, son of Edward Bates, was herding cattle on the Meadows last Saturday. His horse took fright, and broke the saddle girth. The saddle came off and the boy was thrown to the ground, his shoulder broken and dislocated by the fall. He is doing well.

The New Dam.

The new dam has been completed and is a very solid, enduring looking structure. It is heavily ballasted against freshets and will withstand any pressure that it is likely to get. The dam is low and wide so that when the river is high the water will flow over it.

A Reliable Clothier.

M. Nathan has built up a solid reputation in Reno. He has been here so long and has such a variety of choice goods that he has made a friend of nearly every man in the country. People coming in from the country should go to his store and see his goods by all means.

Entries for the Races.

Last Saturday evening the trustees of the State Agricultural Society had a meeting pursuant to adjournment. It was ordered that the time for entries to all stake races, and to No. 18, be extended to August 20; and that weights in No. 13 and No. 18 should be announced on August 25.

Pretty Hot Down Below.

Burchard & McClelland last Saturday got a letter from Florin, a place about seventeen miles from Sacramento, saying that the mercury on the day of writing had marked 117 in the shade. The writer said he could supply no more fruit as it had all been burned up and ruined by the excessive heat.

Arm Broken.

A young son of Wm. C. Williams of Glendale, was in town yesterday to have his arm examined by Dr. Bergman. The boy had an arm broken in the hay field, about three weeks ago, by a fall. The fracture is knitting rapidly and he will soon be able to take his arm out of limbo.

LEGAL NOTICES.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to Arden Jones greeting: You are hereby required to appear in an action commenced against you as defendant by James Jones as plaintiff in the District Court of the Second Judicial District, and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service), by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a decree dissolving the bonds of matrimony heretofore and now existing between plaintiff and defendant. Plaintiff alleges: That plaintiff and defendant were lawfully married in the county of Washoe, on or about July 20th, A. D. 1873, and ever since have been and now are husband and wife; that on or about September 9th, A. D. 1875, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have so continued and do now so continue to desert, abandon and live apart from the plaintiff against her will, wish or consent; that for more than a year and a half preceding the commencement of this action you, the defendant, have failed and neglected and now do fail and neglect to provide for the plaintiff the common necessities of life, which neglect is and was not the result of poverty on your part, which you could not have avoided by ordinary industry; that there are no children living of the issue of said marriage and no common property. Plaintiff prays to be restored to her maiden name and costs, all of which will more fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in and for the county of Washoe, State of Nevada, and you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof I, P. B. COMSTOCK, Clerk of said court, have hereunto set my hand and affixed the seal of said Court this sixth day of December, A. D. 1878.

P. B. COMSTOCK,
Clerk of the District Court of the Second Judicial District, Nevada, in and for the county of Washoe.

Nabob Whiskey!

THE PUREST AND BEST
—FOR ALL—

For Medicinal and Family Purposes.
100,000 Cases Sold in 1876.
SIMMOND'S MEDICATED NABOB WHISKEY

Has been sold in all the Eastern States and given universal satisfaction. It is highly recommended by the faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc. It is now introduced to the public of the Pacific Slope under the following certificates of the eminent Dr. S. Dana Hayes, State Assessor of Massachusetts, and Dr. H. C. Loderbach, of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guarantee to all buyers of its purity and quality. I can show thousands of letters from private persons from all parts of the Union and Canada, to testify to its merits and the benefit it has afforded, as a truly remedial and tonic. Osburn & Shoemaker, agents for Washoe county, will supply dealers at jobbers' rates by the bulk or case, or may be ordered. Also for sale by Pinner & Queen, Drug Gists, and by John F. Myers, Druggist.

WHY STAY POOR?

Prospecting often Pays! Idleness Never. The millions of the Comstock was a lucky find. Worthless looking rock is often rich in treasure. At Leadville a simple assay made millions for many. Other bonanzas were least expected by the coming of some unknown man. Who is he? At Virginia City, Nevada, assays for Gold and Silver are made at \$1.00 per sample, by O. W. WIGAND, formerly the Supervising Assayer of the U. S. Mint at San Francisco. The mail will carry one sample to his office for one cent per ounce. Reports which may be relied on absolutely, come back by return mail, or results are telegraphed when ordered so. All costs, delays and risks in remitting money are avoided by the purchase of our Dollar Remittance Tickets, which pay for all work done in our establishment. We sell these prepaid tickets at a discount, when \$5 worth or more are ordered at one time. Small checks for mailing ore samples also for sale at a nominal price. For further information address
